

# Packaging For Easier Use!

## DPD TesTabs®

As the only North American manufacturer of DPD tablets, LaMotte has replaced traditional foil-on-foil strip packaging with blister-style foil packaging. The user can dispense each tablet into a small vial by pressing the tablet through the foil. This eliminates the need to manually tear open a foil packet and carefully dispense the tablet. The package carries the customary 10 tablets per strip in a compact 3.35" x 1.35" size. In addition to the convenient package, the DPD rapid dissolving formulas for measuring Free and Total Chlorine have been enhanced for faster dissolution. Listed below are **visual grade tablets**.

DPD 3 is added to the reacted sample to measure Total Chlorine. Liquid reagents are also available to measure pH, Hardness, Alkalinity and Copper (see the Pool & Spa Price list).
